

## DONATE FOR SEWING MACHINES TO TAILORING TRAINED POOR YOUNG WOMEN AND GIRLS

### **1. Project Title**

Donate for Sewing Machines (Electronic) to Tailoring Trained poor young Women and Girls in India.

### **2. What will this Micro Project Change ?**

Previously, we have organized Tailoring Training to 40 young Women and Adolescent Girls. They have successfully completed their training course. Presently, they are working under the contractor and master tailors at meager wages. Hence, they are frequently coming to our organization office and they are requesting Sewing Machines and Toolkits, in order to start their own units, we are unable to provide financial support in this regard. Because of CORUS is a small organization and unable to provide financial support to the beneficiaries provide Sewing Machines and Toolkits etc. Hence, we are submitting this project proposal for your kind consideration and necessary support your esteemed organization provide financial support, we will purchase Sewing Machines, Toolkits and wooden stools for distribute to the beneficiaries. Thus, they can start own units in their colonies, house premises and main areas of town. Thus, they can start their own units, stitching Jackets, Petticoats, Children dresses, both boys and girls and other people. Consequently, they can get self employment earn an amount of Rs.6,000/- to Rs.8,000/- in a month as at net income. During the marriage seasons, Festivals, Jatharas and other occasions, each beneficiary get earn an amount of Rs. 8,000/- to Rs.10,000/- in a month as at net income. Thus there financial and bargaining capacity will be improved, provide square meal, Education to their Children basic and recurring needs. The beneficiaries will get self confidence, self respect and become key persons in their families and get respect and dignity.

### **3. What Problem will this Project solve ?**

The beneficiaries are very poor and landless, due to poverty and unemployment have migrated from their own villages to the Kurnool town. In order to get self employment, protect their children family members their old parents from hunger, death and diseases. They have constructed small huts, outside of the

main city/villages by using cheap materials such as Kora grass, sedge under cheap wood materials, their main sources and resources it's a daily labour. They are going for daily labour early in the morning and coming back late night in every day, they are mainly working in Building construction work, working as domestic servants, they have to clean house premises, wash cloths, get water and other domestic works. These works are not available fulltime and their daily earning are also very meager, not sufficient fulfill their basic and recurring needs in order to avert this problem get economic sustainability and improve their living conditions and provide basic education to their children. They got serving training for 3 months tailoring training successfully, which was conducted by Community Organising for Rural Upliftment Society by the help of Globalgiving. The Community Organising for Rural Upliftment Society have distributed Trained Certificates to the young women and girls. Because of poverty and meager income they are unable to start their own units got self employment and other problems still they are leading measurable and sympathetically life in the Society. Presently, some are working under the Master Tailors and some are going to daily labour, because they did not have purchasing Sewing Machines and Toolkits etc. If your esteemed organization can provide financial support to the beneficiaries, we will purchase Sewing Machines, Toolkits and start their own units. Thus, each beneficiary can earn an amount of Rs.6,000/- to Rs.10,000/- as at net income in a month. Thus, they can lead respectable life without depending on others with good name and fame in the society.

4. **How will this Micro Project solve the problem ?**

Because of poverty they are unable to purchase Sewing Machines and Toolkits etc. Hence, again they became as daily labour domestic servants and working in various type of menial works, leading very measurable and sympathetic life. They have tried their best level to got financial support for local branches of SC, ST and Backward communities of SC, ST, BC Corporations etc. But, Officers are not cooperated and not same forward to provide a loan for establishment of their own units. Hence, beneficiaries are not in a position to purchase Sewing Machines and Toolkits etc., by their own capacity. Your esteemed organization provide financial support in this regards, the beneficiaries can purchase Sewing

Machines, Toolkits and other materials. Thus, they will start own units, get a good income and solve their problem to this project. Therefore, it is very necessary and essential to provide financial support for purchase of Sewing Machines, Toolkits and other materials in order to start their own units. If your esteemed organization can provide financial support in this regards to all beneficiaries start their own units its self employment getting sufficient income and lead good as well as respectable life in the society. In addition to the above the beneficiaries will got respect, honour and dignity both in their families and villages. Hence, once again on behalf of beneficiaries, we are humbly requesting your esteemed organization provide financial support in this regards. Consequently, they will get self employment get Rs.6,000/- to Rs.10,000/- as at net income in a month, liberate from the clutches of poverty from hunger, diseases, lead good life with peace and joy in their lives.

5. **Potential long term impact.**

To this project 40 young Women and Girls have been already got training for 3 months on Tailoring Training course. They are able to stitching Petticoats, Jackets, boys and girls and other dresses such as half shirts, half pants and other various types of dresses. All 40 trained Women and Girls will get self employment earn not less than Rs.6,000/- to Rs.10,000/- in a month. This amount will be used for their family welfare, Children education and other recurring needs. Hence, poverty, hunger and dependency and other problems will be solved to this project. 75 Children 35 Girls and 40 boys will be withdrawn from Child labour and readmit them in formal Schools and eligible children will be admitted in Government Hostels, Residential Schools and other educational institutions. In addition to the above parents are not in a position to provide nutrition food to the hunger Children. Consequently, majority of the boys and girls are suffering from malnutrition and severe chronic. They are training behind than other children in all respects. Hence, is necessary providing financial support for 40 beneficiaries to provide Sewing Machines and Toolkits etc. Thus, they can start their own units and good income, provide sufficient meals to their children and develop their health as well as nutritional status of each child.

More than the above all families will be liberated and clutches of poverty and lead dignified life. The unmarried trained girls will get married this as well as respect in the society. They can also teach to other girls about Tailoring to the unmarried girls in their mother in law houses/ villages, year by year self employment will be generated more and more unemployed youth will get self employment and leading respectable life in the society.
