

Donors of Global Giving visiting our program: Non Formal Education Center

The Non Formal Education Program of Seva Mandir is currently catering to over 5000 school-going-age children across 182 centers.

Over 1600 people across the globe have supported our Non Formal Education Program through America's Giving Challenge in January 2008. A couple of these donors have been able to visit a few of these centers. They had a chance to interact with the children and the Teachers. Here's one of the comments by one of the Donors who visited us on the 16th of January 2008.

“What an experience! Having the beautiful Udaipur City for Rajasthan's dry rural areas to visit; Seva Mandir's work at last!

We visited a Non Formal Education Center where 33 children were enjoying the lessons of a very enthusiastic teacher. So great to see the enthusiasm of the children in response to him”.

Such visits and comments also boost a lot of confidence in us. We are thankful to all of our donors who have supported, trusted and stood by us.
